

Manufacturing Review

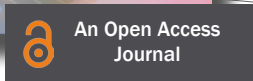

International peer-reviewed journal
focused on providing high level critique
and advances of manufacturing topics

Manufacturing Review aims to stimulate and record an international forum for disseminating, through original papers, knowledge on the advances, developments and applications of manufacturing engineering with a focus on critical reviews of developments in manufacturing and emerging trends in this field.

Key Elements

Rigorous peer review

Strict ethical policies following the COPE code of conduct

Compliance with all **open access mandates**

Author services: performant search engine, article metrics, bookmarking...

Fair author rights: CC-BY Creative Commons license

Reader services: free e-mail alerts and RSS Feeds, Crossref and DOI

Editor-in-Chief:
Prof. Yi Qin
University of Strathclyde, UK

Manufacturing Review content includes:

- critical reviews
- original research articles
- special topic contributions

Submit an article - Sign up for e-mail alert
